Norcan Fluid Power named as one of the first distributors  
of Hågglunds products in Western Canada

March 27, 2023  
FOR IMMEDIATE RELEASE

North Vancouver, British Columbia – Norcan Fluid Power Ltd., a leading supplier of hydraulic components, parts, engineering, and service was appointed an official distributor of Hågglunds products for Western Canada. Hågglunds, a division of Bosch Rexroth, is a global leader in the field of hydraulic drive systems.

Norcan Fluid Power's customers will now have access to the wide range of Hågglunds products, including their hydraulic motors, which are renowned for their high torque, versatility and reliable performance in the toughest of applications. Hågglunds's products are used in a variety of industries from mining, construction, pulp and paper to marine and offshore.

"We are deeply honored to be named as one of the first distributors of Hågglunds products for Western Canada," said Scott Brown, General Manager of Norcan Fluid Power. "We pride ourselves on offering our customers the best hydraulic products on the market, and Hågglunds is certainly one of the best. We are confident that customers who are already pleased with the performance and reliability of the Hågglunds product will now find us as a reliable partner in the future."

Norcan Fluid Power has been serving the hydraulic needs of Western Canadian customers for over 40 years. The company offers a wide range of products including hydraulic cylinders, valves, pumps, motors, filtration, measurement and monitoring equipment as well as custom designed systems and solutions.
